

## Technical Data Sheet

### Basic Green 5

#### Compound Information

|                    |                                                                                    |
|--------------------|------------------------------------------------------------------------------------|
| Product Name:      | Basic Green 5                                                                      |
| CAS No.:           | 224967-52-6                                                                        |
| Molecular Formula: | C <sub>16</sub> H <sub>17</sub> Cl <sub>4</sub> N <sub>4</sub> O <sub>2</sub> SZn- |
| Molecular Weight:  | 536.58                                                                             |
| Revision Date:     | 2026-04-15                                                                         |

#### Analytical Information

| Tests            | Specifications                                                   |
|------------------|------------------------------------------------------------------|
| Appearance       | Brown to black Solid                                             |
| Solubility       | Opaque, deep blue solution (1 mg/mL in H <sub>2</sub> O)         |
| Absorbance Ratio | 657 nm in water (ph 5.8 buffer), 618 nm in water (ph 5.8 buffer) |
| Dye Content      | > 65%                                                            |
